

Metal Architecture 2023 Editorial Calendar

MONTH	SPECIAL REPORT	ADDITIONAL FEATURES	PRODUCT TECH REPORT	PRODUCTS AND PROJECTS	BONUS DISTRIBUTION
January Ad Closing: 12/8/22 Materials Due: 12/15/22	State of the Industry <i>Industry experts address the economic prospects for construction in 2023 as well as delve into the issues our audience is facing.</i>	Coating and Light Reflectance Values	Mesh, Perforated and Expanded Metals	Products Natural Metals HVAC and HVLS Fans Projects Federal, State, Municipal and Military	
February Ad Closing: 1/12/23 Materials Due: 1/19/23	Maximizing Energy Conservation in Metal Buildings <i>More stringent energy codes and the drive toward net zero energy use are making metal buildings more and more sustainable.</i>	Above Sheathing Ventilation	Rolling, Bifold and Walkthrough Doors	Products Structural Technology Projects K-12 Schools	International Roofing Expo
Ad Impact Study					
March Ad Closing: 2/9/23 Materials Due: 2/16/23	37th Annual Architect Survey <i>Readers report on how the industry performed in 2022 and what they expect will happen in 2023.</i>	Special Section: Natural Metals	Metal Composite Materials	Products Connections Coatings and Finishes Projects Sports and Recreation	
The 2023 Metal Directory and Resource Guide Ad Closing: 3/2/23 Materials Due: 3/9/23					
April Ad Closing: 3/16/23 Materials Due: 3/23/23	WELL in the Covid Era <i>The pandemic raised awareness about the importance of indoor air quality and WELL certifications are evolving.</i>	Metal Ceiling Trends	Metal Building Systems	Products Roofs Daylighting Projects Residential and Mixed-Use	
May Ad Closing: 4/13/23 Materials Due: 4/20/23	Exterior Metal Finish Trends <i>Brighter colors, more texture, natural metals. What's the latest in exterior metal finishes.</i>	AIA Show Preview	Insulated Metal Panels	Products Doors and Windows Sustainable Projects Self Storage, Agriculture, Warehouses and Manufacturing	
June Ad Closing: 5/11/23 Materials Due: 5/18/23	What's New in the K-12 Education Market <i>From new design trend to revised approaches to floor plans, the K-12 market is undergoing changes.</i>		Metal Roofing	Products Walls Accessories Projects Museums, Libraries and Cultural Centers	AIA Conference on Architecture

Metal Construction News and Metal Architecture regularly address the following topics through columns, contributed features and regular features.

Product Tech Reports:
Contributed content that provides details on product-related issues.

Constructive Insights:
Tools and techniques for architects looking to gain an advantage in this demanding industry.

Products Coverage:
New products and a survey of metal construction products by category.

Law Column:
A topical look at legal issues facing contractors.

Profit Building:
Advice on best practices, sales and marketing strategies and other tips for business improvement.

Industry Perspective:
Updates and insights on what is happening behind the scenes in the industry.

Safety Column:
Addressing the most important topic on the job site: employee safety.

MONTH	SPECIAL REPORT	ADDITIONAL FEATURES	PRODUCT TECH REPORT	PRODUCTS AND PROJECTS	BONUS DISTRIBUTION
July Ad Closing: 6/8/23 Materials Due: 6/15/23	Metal Architecture Design Awards <i>The design award program that sets the standard for innovative and exciting design using metal building systems and components.</i>		Solar Products	Products Coatings and Finishes Shading Projects Hospitality	
August Ad Closing: 7/14/23 Materials Due: 7/21/23	Designing to Accommodate Movement <i>Metal expands and contracts and planning for that begins at the very onset of the design process. But how?</i>	Special Fabricator Section Metal Materials and the Indoor Environment	Windows, Skylights and Daylighting	Products Structural Interior Products Projects Health Care	
September Ad Closing: 8/9/23 Materials Due: 8/17/23	IMP Integration with Other Building Components <i>Make sunshades, canopies, louvers and other building components work seamlessly with insulated metal panels.</i>	METALCON Show Preview	Metal Wall Panels	Products Connections Solar Products Projects Religious	
October Ad Closing: 9/14/23 Materials Due: 9/21/23	Dealing with Increased Customization for Metal Building Design <i>Metal building systems provide great off-the-shelf solutions, but increasingly they compete with conventional framing for unique and sophisticated design opportunities.</i>	Greenbuild Show Preview	Accessories	Products Roofs Daylighting Projects Colleges and Universities	METALCON ABX Architecture Boston Expo
November Ad Closing: 10/12/23 Materials Due: 10/19/23	Special Issue: Building Science Update <i>Building performance is becoming more complicated and keeping up with the latest information is essential.</i>		Sunshades, Louvers and Grilles	Products Doors and Windows Thermal and Moisture Protection Projects Office and Retail	Greenbuild Expo
December Ad Closing: 11/9/23 Materials Due: 11/16/23	Metal Construction Association Design Awards <i>These awards recognize the best use of materials provided by members of the Metal Construction Association.</i>		Coatings and Finishes	Products Walls Ornamental Projects Transportation and Aviation	

Industry News:
Covering the events and changes in the industry.

Project Features:
In-depth looks at projects and how the construction team delivered them.

Site Scene:
Photos that capture the excitement of the job site.

Top Honors:
Profiles and award-winning projects.

December Special Issue Design Book 2023

Metal building products are driving dynamic changes in architecture and giving designers new tools. The results are seen monthly in *Metal Architecture*, and we capture the most sophisticated use of metal building products in our annual Design Book.
